

From January 17 to 30, on the therapeutic department of the Second City Hospital, the training practice “Nursing of patients with a therapeutic profile” is held for English-speaking first-year students of the specialty “General Medicine”.

During the internship, students got acquainted with the work of the reception, therapeutic, cardiology departments and intensive care department. Also mastered the practical skills of patient care.

The practice test will take place according to the schedule. All necessary documents are published on the official website in **Practice**

Heads of the practice: associate professor Sapozhnikova S.Yu., assistant Ksenofontova A.G., assistant Vasilieva L.N.
