

On February 24, 2021, in the assembly hall of the Faculty of Medicine, a ceremonial presentation of diplomas and gratitude to students who took part in a meeting of the section on internal diseases propedeutics with issues of radiation diagnostics in English took place, which was held as part of the All-Russian festival of student youth "Man. Citizen. Scientist 2020 ". The section on propedeutics of internal diseases with issues of radiation diagnostics in English was organized for the first time, during its meeting 11 reports were heard in English.

Candidate of Medical Sciences, Associate Professor of the Department of Normal and Pathological Anatomy with Operative Surgery Elena Gennadievna Drandrova, as well as the secretary of the section, assistant of the Department of Propedeutics of Internal Diseases with a course of radiation diagnostics Lidia Nikolaevna Vasilyeva thanked the participants and prize-winners of the conference for their active participation, wished them further creative success, excellent studies and good health. We look forward to further cooperation and fruitful work.
